

Attention: Principal, HODs and Subject Heads

Maths and Science online and classroom SOLUTIONS during and post lock-down

The Covid-19 pandemic has severely compromised our education system and will require much collaboration on various fronts to address the backlog and the possible gaps.

We have been working with educators and learners across South Africa and other African countries for the past 15 years, offering cutting-edge teaching materials and support in both Mathematics and Science for Grades 8 - 12. Teacher information, guidance and training is FREELY AVAILABLE via Zoom, if required.

Our materials are available for teachers & learners to access in classrooms, computer labs, at home and on mobiles which will ensure extensive outreach.

Our website & material is zero rated for data usage by the DBE!

TEACHER BENEFITS:

- Ideal for Covid-19 MASKED TEACHING as our visuals & sound will almost eliminate this challenge for you & your learners every lesson!
- Can be used on laptops with speakers + school data projectors in class
- Provides structure for regular homework and all distance learning
- Perfect digital tools for your daily teaching
- Averages can improve by up to 15%!
- Allows you to complete the curriculum timeously
- Works effectively when learners are at home or sick
- You can Earn your SACE CPD points for FREE!

Pass rates & averages will improve by 15% or more!

LEARNER BENEFITS:

- Can be used on mobiles, tablets or computers
- Designed for top digital learning

Maths & Science Online Tutorial website for teaching and learning at school and at home

Used by 1000s of learners during the lockdown period!
Start using in class & at home today!

WHY USE OUR MATERIAL:

- Teacher and learner material is ZERO rated for DATA by DBE so free internet access
- Proven track record. It was used by teachers & learners at Claremont High School - the top Science school in the Western Cape in 2019! Congrats CHS!
- We have been working with educators and learners across South Africa and other African countries for the past 15 years, offering cutting-edge teaching materials and support in both Maths and Science in Grades 8 - 12.
- We aim to provide the best materials, methodology and tutorials for every teacher and learner in South Africa via Bulk School Coupon orders.
- This will cost only R5.00 per learner per grade for orders over 400 units
- Individual marks improve by up to 50% with daily use use to ensure Grade averages and pass rates improve by up to 15% if teachers and learners use our materials, tutorials & methodology daily/weekly!
- YOU can enable your learners to become doctors, accountants, lawyers, engineers, IT specialists and teachers!
- Every teacher & learner needs & deserves access to ensure top results and best opportunities for their learners!
- If teachers successfully complete the assignment (with 80%) they can download their completion certificate and it will count towards their Type 1 CPD (5 points) for the year!

HOW IT WORKS:

- The school orders between 400 and 1500 coupons for G8 – 12 learners, online.
- The school will be sent the unique school coupons for distribution to each learner.
- Each learner gets access to R1 000 worth of Maths &/or Science tutorials per Grade on our website for the year!
- Teachers get access to R5 000 worth of tutorials each, for FREE!

Can be funded by the school, SGB, sponsors, parents, staff or even learners!
